Subject: RE: Draft Briefing Notes for RA for EPA-BLM Mtg on Upper Animas

Thanks Paula - I think Richard may wish to look at the PRP BLM language so that it is proper and then I would like to have the Comm Strat attached for Shaun's benefit and a couple of talking points for Shaun extracted from that Comm Strat in the briefing package. Something along the lines of Glad to be having this conversation with you today in advance of the meeting next week Think we are on the same page as to the messages we wish to deliver next week but wanted to use this meeting to confirm.....Believe listing is an option that we wish to discuss further with the community and offers options for addressing the communities concerns in a structured manner that also has the benefit of allowing the federal coffers to be available for addressing complex and persistent problems in the Las Animas watershed.

Subject: Draft Briefing Notes for RA for EPA-BLM Mtg on Upper Animas

Martin – Attached are draft briefing notes prepared for the RA for the EPA-BLM meeting on the Upper Animas next Monday, April 21st. Please let me know if you have any comments on the briefing notes. I will be on going to Silverton this Thursday for the stakeholders meeting so I will finalize by COB tomorrow (Wednesday) and send to Noah for him to send to the RA's office (*per the guidelines sent out yesterday*).

Thank you.

Paula Schmittziel
